

POSTMAN: Verify temperature is returned

Used the following link (checking temp_c field exists):

<https://api.weatherapi.com/v1/current.json?key=c9ca302e37d44cc68cc11806252207&q=Chicago>

Received: 200 OK Successful / "temp_c": 28.9 listed

The screenshot shows the Postman interface with a GET request to `https://api.weatherapi.com/v1/current.json?key=c9ca302e37d44cc68cc11806252207&q=Chicago`. The response is a 200 OK status, indicating a successful request. The response body is displayed in JSON format, showing the following structure:

```
1 {
